

# How to download apps using iTunes U

If you have a new iPad please ensure you have set up the device as per the set up instructions.  
 1. If the **iTunes U** app is not already on your device, please make sure you download the app.

To do this:

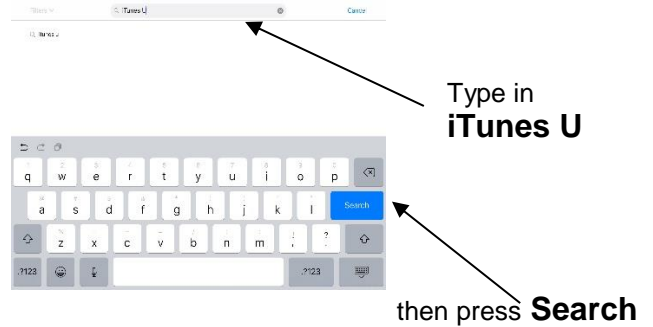

a) click on the App Store app

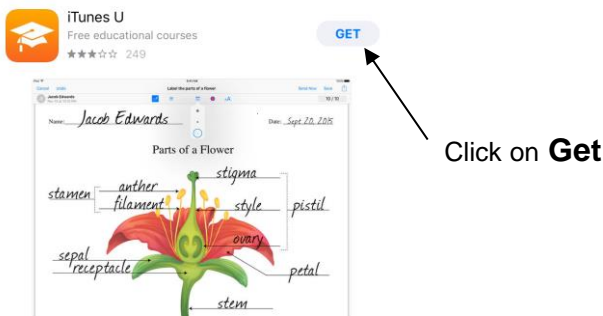

b)

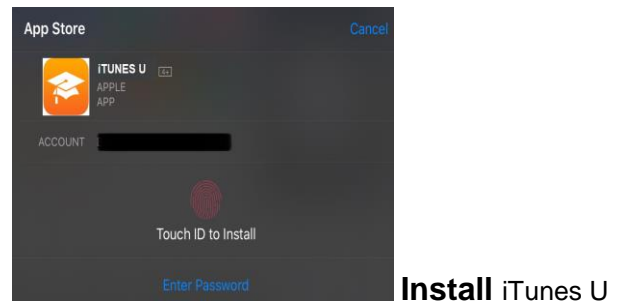

c)

d)

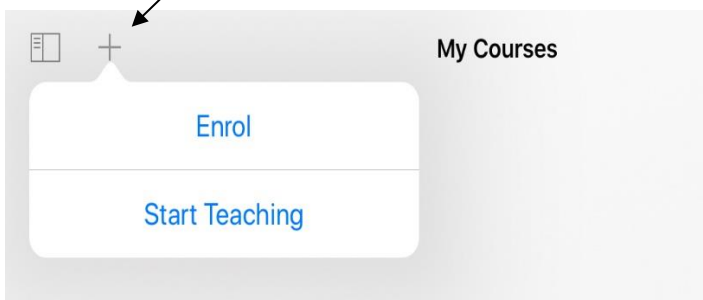

e)

2. Once downloaded, tap on the iTunes U app to open it.

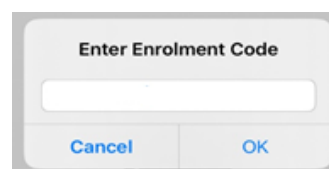

3. Tap on the **+** and then click on **Enrol**

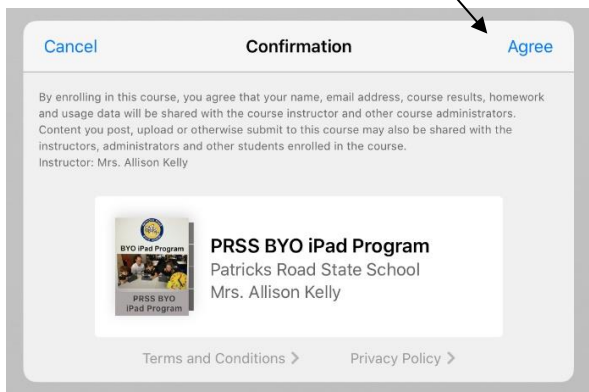

4. Enter one the following **Enrolment codes**:  
 Choose the code next to your child's class in 2020

- 2A: **CKZ-MHY-PXE**
- 2B: **DES-KAK-MTK**
- 2C: **CZC-AZN-ERC**
- 2D: **CKD-RDP-LFA**
- 2E: **DKR-ZWH-FXK**

*New Students:* **DHT-XLR-XAD**

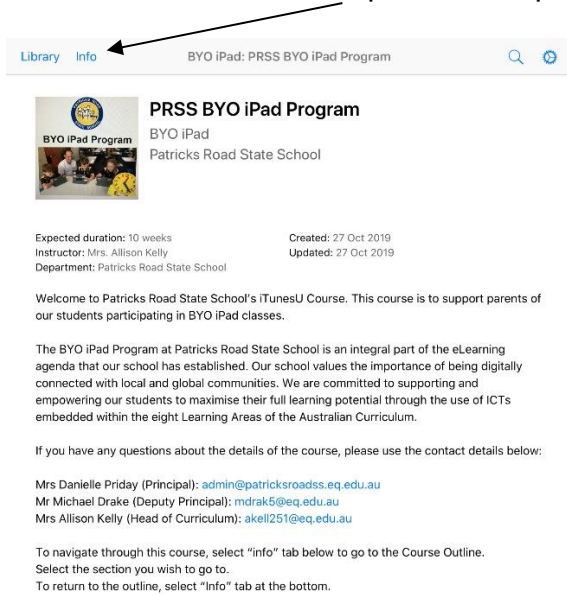

5. **Agree** to the Confirmation of enrolment and Terms and Conditions.

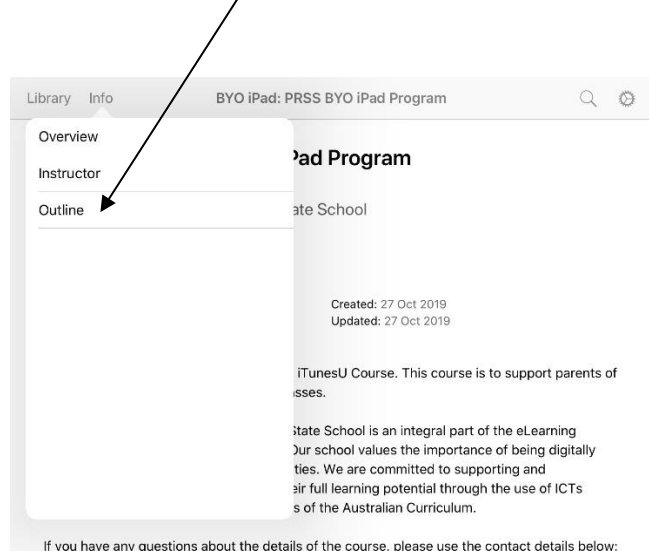

6. Tap on the PRSS BYO iPad Program.

7. Once you have opened the PRSS BYO iPad Program, you see this page. Click on the **Info** link at the top left of the page.

8. Click on the **Outline**

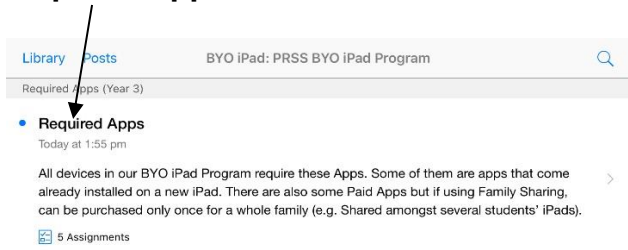

9. Click on **Required Apps (Year 3)**

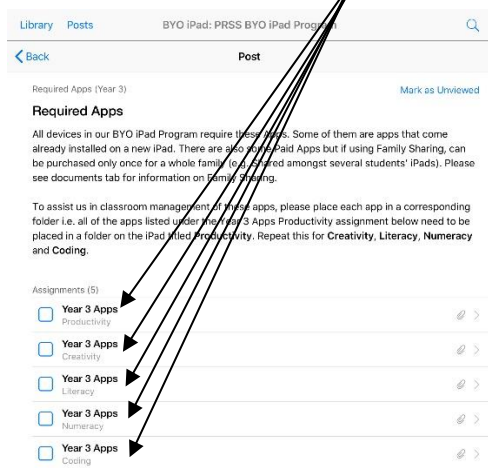

1. Learning and Teaching Vision
2. Required Apps (Year 3)
3. Documents

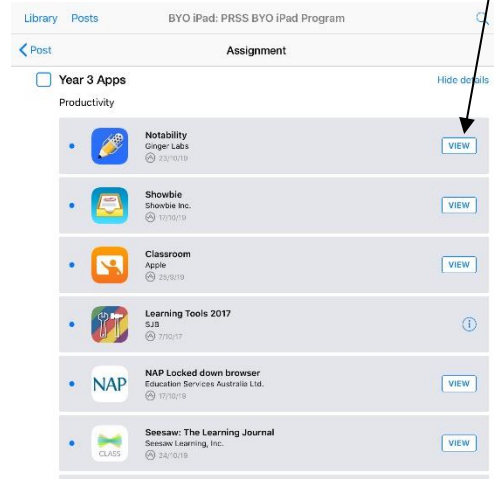

10. Read this section and then click on **Required Apps**

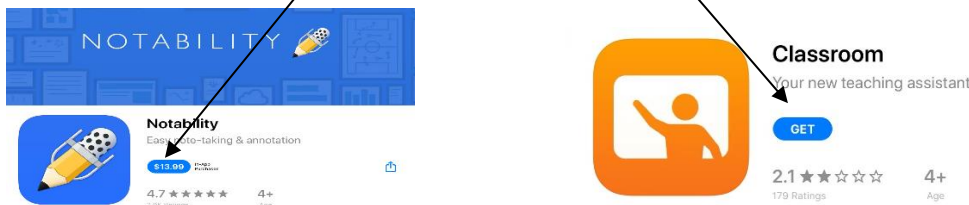

11. Click on each assignment and download the app within each one.

12. To download each app click **VIEW**

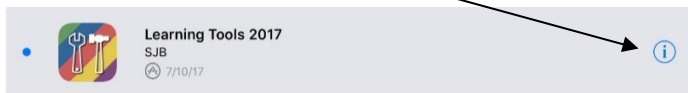

13. Click on either the price (if a paid app) or GET (if a free app) to download the app.

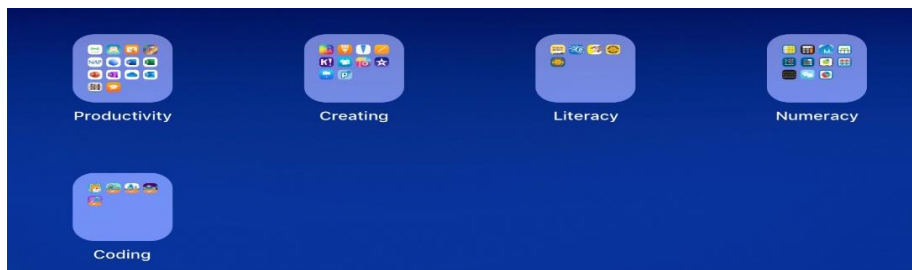

For paid apps, credit can be loaded to iTunes via an iTunes card (which will need to be redeemed) or apps can be paid for using a credit card.

Any apps that appear with an **i** next to them are already downloaded on your device.

After downloading each set of apps, please place each app in a corresponding folder i.e. all of the apps listed under the Year 3 Apps Productivity assignment need to be placed in a folder on the iPad titled **Productivity**.

Repeat this process for **Creativity, Literacy, Numeracy** and **Coding**.

A folder can be created by dragging one app on top of the other. It will automatically create a default name for the folder which you can change by holding your finger down on the folder name. Hit the x that appears near the name and then type in the required name. Once you have typed the new name for the folder, hit the home button.

More information on setting up folders can be found at:
